# 公司简介
## Company intruduction

Changzhou ChengLi Precision Equipment Co.,Ltd is the exporting company of Changzhou Rongjiu Machinery Co.,Ltd.
Together with YIMAI, AOKS,RONGJIU,CHENGLI, this company group has 4 brands in total.
We have 4 manufacturing plants as well. One machine line in Shanghai and three machine parts lines in Changzhou City.

Company General Situation:
Staff Quantity: 110
Factory Area: 12000㎡ in total
Certificate: ISO9001:2015, CE, CCC, ROHS

Large factory production, more production lines

Can be customized, sufficient supply

Good quality and low price

**Product Name:**Black Rubber Tube

**Suitable Air Pressure:** 4-8KG

**Applicable Area:** The core part of the airshaft

**Main Components:** Butyl Rubber

**Specification:** Standard according to airshaft dimension

**Note:**
Dimension equals and larger than 80*90 is 10M for one roll. Smaller is 20M for one roll.
Other type of tubes needs to confirm with seller.

**Advantage:**
This rubber tube is only made for airshaft, so it is 100% suitable and best fit the airshaft using situation. The raw material is best selected according to the airshaft feature.

If need the rubber tube for other industry or other situation, please provide us with the details of the using environment and dimension.

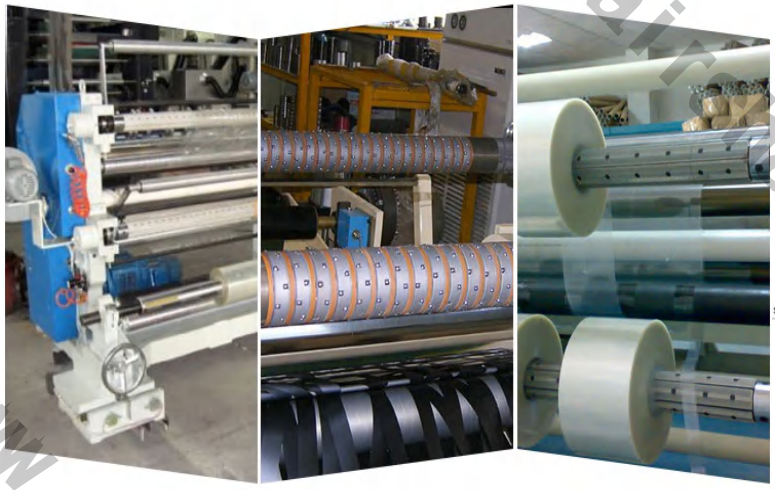
## SUITABLE FOR VARIOUS USES

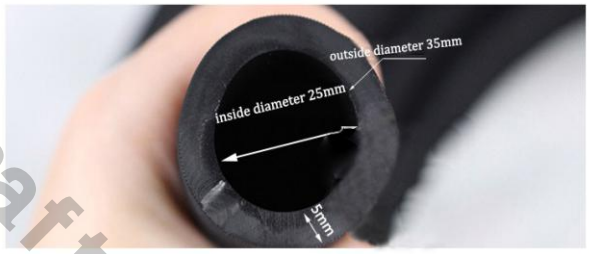
Welcome enterprises and individual customers to purchase

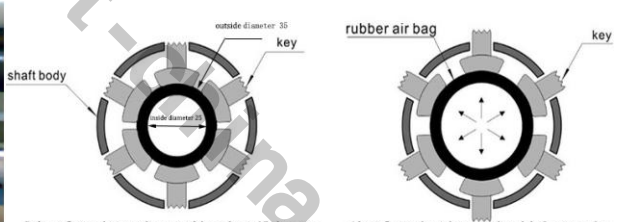


## BUYERS NEED TO KNOW

The air bag is the core product of the gas expansion shaft. Once the air bag is broken, the service life of the gas expansion shaft will end.

Choose high quality air bag to improve production efficiency and reduce maintenance cost





Before inflation, the inner diameter of the air bag is 25, the outer diameter is 35, and the diameter of the shaft is 74

After inflation, the air bag expands and the key protrudes to resist the paper tube

## Good air bag, good tear resistance

A worry free air bag

Imported butyl rubber materials

## Industrial practical choice

IT IS SUITABLE FOR AIR INFLATION SLEEVE

| Imported material | Complete specification | Not easy to burst | Save time and effort |

**Product Name:** White Tube

**Applicable Area:** The core part of the airshaft and friction airshaft

**Main Components:** TPU/Silicone/Glass Fiber

**Specification:** Standard according to airshaft dimension

**Note:** Standard roll is 50M for one roll. Nonstandard is able to be made, our expected MOQ is 1000M.

**Advantage:** The raw material is 100% suitable for airshaft using. Its component is being adjusted during our manufacturing process. We are upgrading the quality level of this tube year by year.

## Standard Dimension:

| | | | |
|---|---|---|---|
| 10*0.8 | 14*1 | 15*1 | 15*1.5 |
| 16*1.2 | 18*1.3 | 20*1.5 | 25*1.3 |
| 27*1.5 | 30*1.5 | 27*2 | 30*2 |

If you need other dimension please contact seller.
If you need this type of tube for other industry, please also contact seller, and give the dimension and details of using environment to seller.

## Black Flat Rubber Tube

**Product Name:** Black Flat Rubber Tube
**Applicable Area:** The core part of the airshaft
**Main Components:** Butyl Rubber/TPU/Silicone/Glass Fiber
**Specification:** Standard according to airshaft dimension

**Note:** Standard roll is 50M for one roll. Nonstandard is able to be made, our expected MOQ is 1000M.

**Advantage:** The raw material is 100% suitable for airshaft using. Its component is being adjusted during our manufacturing process. We are upgrading the quality level of this tube year by year.

**Standard Dimension:**

| | | | | | |
|---|---|---|---|---|---|
| 10*0.8 | 14*1 | 15*1 | 15*1.5 | 16*1.2 | 18*1.3 |
| 20*1.5 | 25*1.3 | 27*1.5 | 30*1.5 | 27*2 | 30*2 |

## Friction Airshaft Ring

**Product Name:** Friction Airshaft Ring
**Purchasing Guidance:** Measure the width, OD and ID, and send photo together to seller.

www.airshaft-china.com

## Airshaft Lug

**Product Name:** Airshaft Lug

**Purchasing Guidance:** Before purchasing, you can send the length, width, height and photo to seller.

## Air Inflation Tool

**Product Name:** Air Inflation tool

**Note:** Yellow Inflation Tool is used for Arrow Head Type airvalve
Gray Inflation Tool is used for Cylinder and Horn Head airvalve

## Air Valve

**Product Name:** Air Valve
**Function:** Pump air into the airshaft

**Types:** See photo.
